Schema di certificazione

CESI-ATEX

Il CESI è stato autorizzato
dal governo italiano ad
operare quale organismo di
certificazione di apparecchi
e sistemi destinati a essere
utilizzati in atmosfera
potenzialmente esplosiva
con D.M. 1/3/1983, D.M.
19/6/1990, D.M. 20/7/1998
e D.M. 27/9/2000

CERTIFICATE

[1] EC-TYPE EXAMINATION CERTIFICATE

[2] **Component intended for use on/in equipment or protective system
intended for use in potentially explosive atmospheres
Directive 94/9/EC**

[3] EC-Type Examination Certificate number:

CESI 03 ATEX 141 U

[4] **Component:** Open-able elbows and open ended straight fittings series LBH – LBHS -
EKC

[5] **Manufacturer:** **ELFIT S.p.A.**

[6] **Address:** Via Aquileia 12, I-34070 Villesse (Gorizia – Italy)

[7] This component and any acceptable variation thereto is specified in the schedule to this
certificate and the documents therein referred to.

[8] CESI, notified body n. 0722 in accordance with Article 9 of the Council Directive 94/9/EC of
23 March 1994, certifies that this component has been found to comply with the Essential
Health and Safety Requirements relating to the design and construction of components
intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in confidential report n. EX- A3/021087.

[9] Compliance with the Essential Health and Safety Requirements has been assured by
compliance with:

EN 50014: 1997 + A1..A2 EN 50018: 2000+A1

[10] The sign "U" placed after the certificate number indicates that this certificate must not be
mistaken for a certificate intended for an equipment or protective system. This partial
certification may be used as a basis for certification of an equipment or protective system.

[11] This EC-TYPE EXAMINATION CERTIFICATE relates only to the design, examination and
tests of the specified component in accordance to the Directive 94/9/EC. Further requirements
of the Directive apply to the manufacturing process and supply of this component. These are
not covered by this certificate.

[12] The marking of the component shall include the following:

II 2G EEx d IIB

This certificate may only be reproduced in its entirety and without any change, schedule included.

Date 12th June 2003

[13]

Schedule

[14] **EC-TYPE EXAMINATION CERTIFICATE n. CESI 03 ATEX 141 U**

[15] **Description of component**

The open-able elbows and open ended straight fittings subject of this certificate are suitable to be mounted on the cable conduits to provide opening in conduit system for pulling or splicing of conductors.

They are identified by a code as follows:

- LBH: open-able elbow
- LBHS: open-able elbow
- EKC: open ended straight fittings

The above mentioned codes are followed by a number which indicates the dimensions of the threaded hole (1; 2; 3; 4; 5; 6; 7; 8; 10). The complete codes of all open-able elbows and open ended straight fittings are reported on the drawings A3-368, A3-369 and A3-379 annexed to this certificate.

The fittings are made in aluminium alloy.

Threads normally used are GAS UNI ISO 7/1 in sizes from ½" to 4". Other equivalent threads can be used in alternative.

Service temperature: - 20 ÷ + 60 °C

[16] **Report n. EX- A3/021087**

Routine tests

The manufacturer shall carried out the routine tests prescribed at paragraph 24 of EN50014 Standard .

Descriptive documents (prot. EX- A3/021088)

- n° A4-1046 Rev. 0	dated	07.02.2000
- Mounting instructions Annex A9 Rev. 0 (4 pg.)	dated	07.02.2000
- Attestation of conformity for component	dated	07.02.2000

One copy of all documents is kept in CESI files.

This certificate may only be reproduced in its entirety and without any change, schedule included.

[13]

Schedule

[14] **EC-TYPE EXAMINATION CERTIFICATE n. CESI 03 ATEX 141 U**

[17] **Schedule of limitations**

- The coupling of the open-able elbows and open ended straight fittings series LBH – LBHS - EKC with the conduit system shall be made as indicated by the manufacturer in the documents annexed to this certificate in order not to jeopardise the type of protection of the electrical apparatus on which the fittings are mounted.
- The threaded part of conduit which will be screwed into holes of elbows shall meet the requirements of EN 50018 Standard, section 5.3 (table 3 and 4) as a minimum.

[18] **Essential Health and Safety Requirements**

Compliance with the health and safety requirements has been assured by compliance with the following Standards:

EN 50014: 1997 + A1..A2 – General requirements

EN 50018: 2000 + A1 - Flameproof enclosures "d"

Table: CEI UNEL 95112; CEI UNEL 95129 e CEI UNEL 95131
